

## Kindergarten Notes

\_\_\_\_\_ In previous years, children living north of Dempster have attended the morning program, and those south of Dempster attended the afternoon program. We intend to continue using those guidelines.

If there is a special need, we should be aware of regarding the placement of your child in either the morning or afternoon session, we require a letter from the parent stating the situation and request. **We will need this letter within one week of registration.**

\_\_\_\_\_ Medical forms that are attached to the registration packet must be returned to the nurse by August 13.

\_\_\_\_\_ Dental forms that are attached to the registration packet must be returned to the nurse by August 13.

\_\_\_\_\_ You will have the opportunity to order a kindergarten supply kit through the PTO. The order forms will be mailed to you once PTO has received them.

We will send a letter in May notifying of morning or afternoon placement. Packet pick-up occurs in August, and that will be when students find out teachers.
